

Curved Fixed Frame Screen

4 Sided Tension Design

The steel tension bars along with the fixing lugs stretch and tighten. The screen fabric is completely flat and wrinkle-free. The tension can be adjusted to ensure an evenly tensioned surface

More Accurate, Realistic, A feast for Your Eyes

Curved projection screens offer several key advantages over flat projection screens. A curved screen helps offset pin cushion distortion from a horizontal expansion lens, and also wraps the image around your periphery more than a flat screen for greater engagement with your projected image. In addition, the curved image is subject to less ambient reflected light from your room, while your projector's light is more accurately reflected by the perfectly smooth viewing surface for an ideal picture. Imported classic soft video fabric, low reflecting rate, high contrast, it is the new generation of household video upgrade screen. Even optical structure, which makes picture clear and natural. Aluminium frame covered with dermis, fashionable, change fabric easily, different colours available. Excellent sound penetrability, create the perfect unity of sound and image. Suitable for use in home theatres, public entertainment places, and etc.

Based on the feature of eyeball to achieve high definition, and balance the focus of screen with the purpose of achieving perfect effect between screen image and visual experience.

Specification

DIAGONAL (inch)	Viewing Area (WxH)	Frame Size	C	Package Size (LxHxW)	Net Weight (Kg)
