

MOTORIZED SCREEN

Motorized Screen type usually is better for multi-purpose home theater where need to rise or down the screen frequently. Our screens are using high quality motors which assure the screen up and down freely and durable flat for long time using. The user no need to operate the screen manually which decreases risk of “pull-and-release”-damages on the screen. Octagonal sheet case, graceful design

OS-MS0403-100

Features of our Motorized Screen:

- * Designed for controlled and uniform rolling of screen fabric, the motor is concealed within the roller, which ensures smooth and quiet operation FORMAT 16:10.
- * KOREAN matte white | GLASS BEADED FABRIC • Advanced motor, & A-OK motor • The A-OK motors are high quality equipped with internal thermal overload protection guaranteeing trouble free usage.
- * They can be lowered or raised using a 3-way rocker switch (included in the cost) or optional Original RADIO remote control. The screen stops automatically in the UP and DOWN positions.
- * Available in superior imported viewing surfaces which are best suited for Front projection.
- * Electrically operated 220V, AC 50Hz single-phase motor mounted inside roller tube 3-wire instantly reversible type with brake.
- * Equipped with internal thermal overload protection. Preset limit switch setting automatically stops the screen in UP and DOWN position.
- * 3-position control switch or radio-remote control stops or reverses screen direction at any point in the operating cycle.
- * Custom Sizes available.

Wide Angle View

Ordain projector screen are treated with special chemical not only to give reflection free image but the special light absorption and dissemination technique spreads the light at much higher angle. This enables a larger audience base catering to nearly people sitting at 75 degree from the screen.

Feature Rich – Long Life

Ordain projector screen are specially made from imported fabric which is designed to give the best brightness. Maximum light is absorbed from the projector lamp making the surface brighter and better. Since these are moisture & dew proof it can be easily cleaned by wet cloth with cold water and mild detergent.
