### Wide Angle View

Ordain projector screen are treated with special chemical not only to give reflection free image but the special light absorption and dissemination technique spreads the light at much higher angle. This enables a larger audience base catering to nearly people sitting at 75 degree from the screen.

### Feature Rich – Long Life

Ordain projector screen are specially made from imported fabric which is designed to give the best brightness. Maximum light is absorbed from the projector lamp making the surface brighter and better. Since these are moisture & dew proof it can be easily cleaned by wet cloth with cold water and mild detergent.

Specification	Description
